Duke University Commencement

One Hundred Sixty-Third Commencement

Sunday, the Tenth of May, Two Thousand and Fifteen
Notes on Academic Dress

Academic dress had its origin in the Middle Ages. When the European universities were taking form in the thirteenth and fourteenth centuries, scholars were also clerics, and they adopted robes similar to those of their monastic orders. Caps were a necessity in drafty buildings, and copes or capes with hoods attached were needed for warmth. As the control of universities gradually passed from the church, academic costume began to take on brighter hues and to employ varied patterns in cut and color of gown and type of headdress.

The use of academic costume in the United States has been continuous since Colonial times, but a clear protocol did not emerge until an intercollegiate commission in 1893 recommended a uniform code. In this country, the design of a gown varies with the degree held. The bachelor’s gown is relatively simple with long pointed sleeves as its distinguishing mark. The gown for the master’s degree has an oblong sleeve with the rear part cut square and the front part with a cutaway arc. The most elaborate academic costume is the doctoral gown with velvet panels down the front and three bars of the same material across the sleeves. The velvet is usually black, but it may be a color designating the field of study to which the degree pertains. The gown itself, usually black like those of the lower degrees, may be of a color distinctive of a particular university.

The hood bears a still larger symbolic burden: the width of its velvet trimming designates the level of the degree; the color heralds the major field of study; and the lining identifies the institution that granted the degree. Duke University is symbolized by a lining of Duke blue with a white chevron.

The cap, originally round, is usually a square mortarboard and is the same for all degrees. The standard tassel for the cap is black, but the cap worn with the doctoral robe may have a gold tassel. The Duke doctoral gown is in the authentic Duke blue. The Duke University shield, embroidered in blue on white, is applied to each front panel. With this gown there may be worn a black velvet, four-pointed, soft tam with a square top and a gold metallic bullion tassel.

Significance of Colors

Colors indicating fields of study and colors identifying some of the universities represented by members of the faculties of the University are:

- Arts, Letters, Humanities: white
- Business Administration: drab
- Dentistry: lavender
- Divinity, Theology, scarlet
- Economics: copper
- Education: light blue
- Engineering: orange
- Fine Arts: brown
- Forestry: russet
- Law: purple
- Medicine: green
- Music: pink
- Nursing: apricot
- Philosophy: dark blue
- Physical Therapy: teal
- Public Health: salmon
- Science: golden yellow

Mace and Chain of Office

Again at commencement, ceremonial use is made of two important insignia given to Duke University in memory of Benjamin N. Duke. Both the mace and chain of office are the gifts of anonymous donors and of the Mary Duke Biddle Foundation. They were designed and executed by Professor Kurt J. Matzdorf of New Paltz, New York, and were dedicated and first used at the inaugural ceremonies of President Sanford in 1970.

The Mace, the symbol of authority of the University, is made of sterling silver throughout. It is thirty-seven inches long and weighs about eight pounds. At the lower end of the hammered shaft is a gilt (gold-plated) pine cone. The upper end of the shaft displays the inscription Universitas Dukiana 1838. This inscription is surmounted by a short, hammered neck followed by the head which has eight flutings alternating with eight gilt ribs. Above the head of the mace, a band carries the motto of Duke University: Eruditio et Religio. The upper end of the mace is a crown of gilt laurel leaves which carries the seal of Duke University surrounded by the three symbols of the Trinity to indicate that Duke University emerged from Trinity College.

The Chain of Office of the President of Duke University is pictured on the front cover. It is four feet long and is also made of sterling silver throughout. The main part consists of nine silver pine cones alternating with ten gilt clusters of three laurel leaves each. In the front hangs the gilt medallion with the official seal of Duke University surrounded by a laurel wreath into which are set the three symbols of the Trinity. In the back is the gilt coat of arms of the Duke family with the motto In Adversis Idem set in a sterling wreath of laurel leaves and bearing the inscription Duke.

Paul Farmer has dedicated his life to improving health care for the world’s poorest people. A board-certified physician in internal medicine and infectious disease, he is the Kolokotrones University Professor and chair of the Department of Global Health and Social Medicine at Harvard Medical School and Chief of the Division of Global Health Equity at Brigham and Women’s Hospital in Boston.

In 1987, Farmer co-founded Partners In Health, an international nonprofit organization with a model for providing health care to parts of the world with very limited resources. Partners In Health provides direct health care services, undertakes research, and advocates on behalf of people who are sick and living in poverty. In addition to 12 sites in Haiti, Farmer oversees projects in 12 other countries, including Russia, Rwanda, Lesotho, Malawi and Peru.

Paul Farmer’s work has been recognized with many awards, including a MacArthur Fellowship, the Conrad N. Hilton Humanitarian Prize for Partners In Health, and the S. Roger Horchow Award for Greatest Public Service by a Private Citizen, an award given out annually by the Jefferson Awards. Farmer is an elected member of the Institute of Medicine and the American Academy of Arts and Sciences. He was named by Foreign Policy magazine in 2011 to its list of top global thinkers.

Farmer was elected to the Duke University Board of Trustees in 2009 and serves on the Academic Affairs Committee and the Medical Center Academic Affairs Committee.
France Córdova
DOCTOR OF SCIENCE

Faculty Sponsor: Robert Calderbank

France Córdova was sworn in as the 14th director of the National Science Foundation on March 31, 2014. Córdova leads the only government science agency charged with advancing discovery, innovation, education and training in the fields of science, technology, engineering and mathematics (STEM). Córdova is the first woman and the first person of Hispanic descent to hold this role.

Córdova is an astrophysicist whose scientific contributions have been in the areas of observational and experimental astrophysics, multi-spectral research on x-ray and gamma ray sources and space-borne instrumentation.

Córdova received her B.A. in English from Stanford University and her Ph.D. in physics from the California Institute of Technology in 1979. For the next decade, she worked at Los Alamos National Laboratory, and she was later named NASA’s chief scientist. She then began a distinguished career in academic leadership, serving as vice chancellor for research at the University of California at Santa Barbara and chancellor of the University of California at Riverside. She was president of Purdue University from 2007 to 2012.

Córdova was elected to the American Academy of Arts and Sciences and is a National Associate of the National Academies. She is also a fellow of the American Association for the Advancement of Science. She is a recipient of NASA’s highest honor, the Distinguished Service Medal. Córdova served as chair of the Board of Regents of the Smithsonian Institution and on the Board of Trustees of Mayo Clinic.
Honorary Degree Recipient

Renée Fleming
Doctor of Arts

Faculty Sponsor: Scott Lindroth

Called “a superstar by any measure” by the New York Times, Renée Fleming is the most celebrated opera singer of our time. Fleming has a full lyric soprano voice that shines through a wide variety of works, including Baroque opera, Mozart, the Italian bel canto repertoire, Verdi, Massenet, Puccini, Richard Strauss, contemporary operas, jazz and songs from all eras.

A musical ambassador, Fleming has performed at distinguished occasions around the world, including the 2006 Nobel Peace Prize ceremony, the 2008 Olympic Games in Beijing, and President Obama’s inaugural celebration in 2009. In 2012, she sang on the balcony of Buckingham Palace in the Diamond Jubilee Concert for HM Queen Elizabeth II, and in 2014 she became the first classical artist to sing the National Anthem at the Super Bowl. At a White House ceremony in 2013, this four-time Grammy Award winner received the National Medal of Arts, America’s highest honor for an individual artist.

Renée Fleming graduated from the State University of New York at Potsdam in 1981 with a degree in music education. She did graduate work at Rochester’s Eastman School of Music, went to Frankfurt on a Fulbright Scholarship, and completed her studies at the Juilliard School.
Honorary Degree Recipient

Rakesh Jain
Doctor of Science

Faculty Sponsor: Christopher Willett

Rakesh Jain is the Andrew W. Cook Professor of Tumor Biology in the Department of Radiation Oncology at Harvard Medical School. A pioneer in tumor biology, Jain introduced the idea that a solid tumor is not simply a collection of cancer cells but an organ-like structure. He proposed the groundbreaking hypothesis—and then validated it in mice and cancer patients—that “normalizing” the tumor microenvironment can improve the treatment outcome. Jain’s discoveries have led to clinical trials that have had a major impact in improving therapies for the treatment of many forms of cancer.

Jain received his bachelor’s degree in 1972 from the Indian Institute of Technology in Kanpur, India, and his M.S. and Ph.D. degrees in 1974 and 1976 from the University of Delaware, all in chemical engineering. He taught at Columbia University and Carnegie Mellon University before joining the Harvard faculty in 1991.

A mentor to more than 200 master’s, doctoral and postdoctoral students from over a dozen different disciplines and 20 countries, and a collaborator with clinicians and scientists worldwide, Jain has more than 600 publications to his name. He has edited seven books on topics ranging from engineering to cancer.

He is a recipient of more than 50 awards, including a Guggenheim Fellowship, a Humboldt Senior Scientist Award, and awards from the National Cancer Institute and the U.S. Department of Defense. He is one of 20 people ever to be elected to all three U.S. National Academies—the National Academy of Sciences, the National Academy of Engineering and the Institute of Medicine.
Michael Feinberg and David Levin met in 1992 while they were both teaching fifth grade in inner-city public schools in Houston as part of Teach For America. In 1994, they started their own free, open-enrollment middle school in Houston with just 50 students and called it KIPP—the Knowledge Is Power Program. A year later, Levin established KIPP Academy New York in the South Bronx.

Today, KIPP is a national network of 141 high-performing public schools in 20 states and the District of Columbia, serving 50,000 students—86% of whom come from low-income families and 95% of whom are Black or Hispanic. To date, more than 90% of KIPP middle schoolers have graduated from high school, and more than 80% have gone on to college.

In recognition of their innovative contributions to education, Feinberg and Levin have earned many awards, such as the S. Roger Horchow Award for Greatest Public Service by a Private Citizen, presented by the Jefferson Awards; the Thomas Fordham Foundation Prize for Valor; and the Charles Bronfman Prize. They received the Presidential Citizen’s Medal from President George W. Bush in 2008.

Feinberg received his undergraduate degree from the University of Pennsylvania, and Levin received his from Yale. They both currently hold leadership roles in the KIPP Foundation and serve on the Board of Directors of KIPP.
Honorary Degree Recipient

Harold Mooney
Doctor of Science

Faculty Sponsors: Norman Christensen and Boyd Strain

Harold “Hal” Mooney received his Ph.D. in 1960 from Duke University, where he studied under Dr. W. Dwight Billings, considered the father of physiological plant ecology in the United States.

Mooney joined the faculty at Stanford University in 1968; today he is the Paul S. Achilles Professor of Environmental Biology, Emeritus and a Senior Fellow Emeritus with the Stanford Woods Institute for the Environment. He is an expert on plants and the functioning of ecosystems from the tropics to the Arctic. Mooney has analyzed the impacts of global change on terrestrial ecosystems, especially biodiversity, and the invasion of non-indigenous plant species.

Mooney has been a national and international leader in the efforts to build scientific consensus on climate change and biodiversity. He has served as president of the Ecological Society of America and the American Institute of Biological Science and has been secretary general of the International Council for Science. He was scientific panel co-chair of the Millennium Ecosystem Assessment from 2000 to 2005 and was chair of DIVERSITAS, an international program on biodiversity science, from 2008 to 2011.

Mooney has been elected to the National Academy of Sciences and the American Academy of Arts and Sciences. He has received numerous awards, including the Tyler Prize, the Blue Planet Prize, the Ramon Margalef Prize in Ecology and Environmental Sciences and the Eminent Ecologist Award.
It has been argued, as one music critic put it, that McCoy Tyner has been “the most prolific, consistently brilliant and straight-out important jazz musician of the last half-century.” His immortality in jazz circles is assured by his contributions in the 1960s as the pianist in the original John Coltrane Quartet. The band, which also included drummer Elvin Jones and bassist Jimmy Garrison, had an extraordinary chemistry, grounded by Tyner’s close, brotherly relationship with Coltrane.

Tyner was 17 when he first began playing with Coltrane. Once Coltrane left Miles Davis’ band, Tyner joined Coltrane for the album My Favorite Things. From 1960 through 1965, Tyner performed on Coltrane’s classic recordings such as Live at the Village Vanguard, Impressions and Coltrane’s signature suite, A Love Supreme.

McCoy Tyner’s artistry and versatility have enabled him to embrace a multitude of styles, from African and Latin rhythms to the modal harmonies of the post-bebop era. An inventive composer, Tyner has been a major influence on the adoption of quartal and quintal harmonies, modes and pentatonic scales in jazz music. Tyner has continued to record and tour regularly, releasing 37 albums between 1980 and 2000.

Tyner studied at the West Philadelphia Music School and later at Granoff School of Music. His work has been honored with five Grammy awards, a Presidential Merit Award from the Grammy Foundation, and a Jazz Master award from the National Endowment for the Arts.

* Denotes the beginning year of service at Duke.
Duke University traces its origin to 1838 when Brown’s Schoolhouse, a one-room log subscription school, expanded to Union Institute upon the uniting of Methodist and Quaker families. Commencement exercises date from 1852 when action of the North Carolina General Assembly authorized the institution to grant degrees. Throughout the years commencement exercises have varied in scope, sometimes offering as much as a week of celebration to the graduates, their families and citizens of rural Randolph County, North Carolina, the site of the predecessor institutions to Duke University. Notable ceremonies in the nineteenth century included those of 1859 when President Braxton Craven presented diplomas reflecting a name change to Trinity College, of 1877 when the first earned M.A. degrees were awarded, and of 1878 when three sisters, Mary, Persis, and Theresa Giles earned degrees, becoming the first women graduates of the College.

The leadership of President John F. Crowell, the donation of land by Julian S. Carr, and the financial assistance of Washington Duke made possible the relocation of Trinity College to Durham in 1892. Within a decade, Trinity College established a reputation for excellence. Commencement ceremonies became more formal under the direction of a college marshal. Caps and gowns appeared, and after 1902, students received Latin honors in recognition of academic achievement. With appropriate ceremony, the college paid homage to Washington Duke, who had died in 1905, with the unveiling of his statue at the commencement of 1908.

From 1910 to 1924, President William Preston Few presided over the development of a particularly strong liberal arts college, and from 1924 until his death in 1940, he directed the successful transition to a complex research university. In December 1924, long-range planning and a lifetime of family philanthropy culminated in the public announcement of a grand design to aid higher education, hospitals, orphanages, and the Methodist Church in North and South Carolina. Acknowledging the unique opportunity for a new identity presented by acceptance of the terms of the indenture of The Duke Endowment, the Board of Trustees of Trinity College enthusiastically agreed to organize a new institution around Trinity College. The enlarged institution was to be known as Duke University in honor of Washington Duke, benefactor and father of Mary, James Buchanan, and Benjamin Newton, all friends of the college in their own way.

Based upon the solid foundation of Trinity College, the University grew spectacularly. The curriculum expanded and succeeding commencement programs noted new degrees: B.D. and M.Ed. in 1927, Ph.D. in 1928, and LL.B. in 1929. M.D. joined the list in 1932, and B.S. in Engineering in 1933, B.S. in Nursing in 1936, and Master of Forestry in 1939. In 1972 the degree of Master of Business Administration, the last curriculum recommended by James B. Duke, joined the list of degrees awarded by Duke University.

The location of the commencement exercises themselves reflects the changing nature of the university. First held in Craven Memorial Auditorium on East Campus, they were moved to West Campus in 1931 and held successively in Page Auditorium and in the outdoor and indoor stadiums. Special ceremonies at commencement have included the laying of the cornerstone of the Gothic campus in 1928, the first use of the Chapel and the inaugural carillon and organ recitals in 1932, and the unveiling of the statue of James B. Duke in 1935. The exigencies of World War II required the awarding of degrees during the year in special ceremonies in a variety of locations.

President Terry Sanford pursued new ways to continue a single university-wide convocation of undergraduate, graduate and professional school students which would still maintain traditional exercises. In a unique format, baccalaureate services are offered three times, and the commencement exercises have now returned to an outdoor setting, first to Wallace Wade Stadium in 1974, to the East Campus quadrangle in 1980, and in 1984 back to the stadium.

The Duke University Wind Symphony

The Duke University Wind Symphony, Verena Mösenbichler-Bryant, Director and Conductor, is an ensemble of sixty undergraduate and graduate students from across the United States and around the world, and is open to all Duke students by audition. The ensemble has commissioned over twenty works, many of them entering the standard repertoire of wind bands throughout the world. The “Commencement Edition” of this weekend’s Wind Symphony is augmented by alumni and friends, including representatives from the 1950s to the present. Commencement 2015 is conducted by Rodney Wynkoop, Director of Duke Chorale and Chamber Choir, and Director of Chapel Music.

The announcer for today’s commencement ceremony is our own “Voice of Duke” Bob Harris.
Notes About the Program

Duke's stone carvings have provided a source of conjecture, amusement and even inspiration to the students, staff and visitors who have passed through this Gothic Wonderland. Photos of these carvings are featured throughout this program.

The lists of candidates appearing in this program are not officially certified lists of graduates. Certification must come from the Registrar of the University.
