Jack O. Bovender, Jr., Chair of the Board of Trustees*Commencement Address***Lisa Borders**, Trustee*Conferring of Earned Degrees*

Introduction and Presentations

Sally Kornbluth, Provost**Deans of Schools***Concluding Remarks**Alma Mater***Vocalists: listed under National Anthem***The audience stands for the Alma Mater and remains standing until the platform party and the faculty leave the football field.*

Dear Old Duke, thy name we'll sing.
 To thee our voices raise, we'll raise,
 To thee our anthems ring
 in everlasting praise.

And though on life's broad sea
 Our fates may far us bear,
 We'll ever turn to thee
 Our Alma Mater dear.
 — R. H. James '24

*Closing Processional***RISE OF THE FIREBIRD***Steven Reineke (b. 1970)***BLUE AND WHITE** (*Fight Song*)**The Duke University Wind Symphony**

The Duke University Wind Symphony, Verena Mösenbichler-Bryant, Director and Conductor, is an ensemble of sixty undergraduate and graduate students from across the United States and around the world, and is open to all Duke students by audition. The ensemble has commissioned over twenty works, many of them entering the standard repertoire of wind bands throughout the world. The "Commencement Edition" of this weekend's Wind Symphony is augmented by alumni and friends, including representatives from the 1950s to the present.

COMMENCEMENT SPEAKER

Lisa Borders

TRUSTEE

Lisa Borders has three decades of leadership across the private, public and non-profit sectors. She is the CEO of LMB Group, LLC,

a management consultancy firm, and currently chairs the Borders Commission, a strategic task force chartered by the United States Olympic Committee.

Borders was the inaugural president and CEO of TIME'S UP, an organization that advocates for safe, fair and dignified work for all women. Borders was also formerly the president of the Women's National Basketball Association (WNBA), where she is credited with accelerating the league's growth and creating new ways for fans to engage with the league.

Prior to the WNBA, Borders was vice president of global community affairs at The Coca-Cola Company and chair of The Coca-Cola Foundation. Her work focused on the integration of the company's global community outreach and philanthropic efforts into its broader sustainability agenda. Borders also served as President of the Grady Health Foundation, the fundraising arm of Grady Health System, Georgia's largest public hospital, where she led a successful five-year, \$325 million capital campaign. From 2004 to 2010, Borders held elective office as President of the City Council and Vice Mayor of Atlanta.

Borders graduated from Duke in 1979 with a French major. She has said, "Duke was willing to bet on me, and that was profoundly inspiring for me." She went on to earn a Master of Health Administration from the University of Colorado. Elected to the Duke University Board of Trustees in 2015, she serves on the External Engagement Committee and the Next Generation Living and Learning Experience Task Force.

HONORARY DEGREE RECIPIENT

Elizabeth Alexander

DOCTOR OF HUMANE LETTERS

Faculty Sponsor: Richard Powell

Elizabeth Alexander – poet, educator, memoirist, scholar, and cultural advocate – is president of The Andrew W. Mellon

Foundation, the nation’s largest funder of the arts as well as humanities in higher education. Previously, Alexander served as the director of Creativity and Free Expression at the Ford Foundation, where she co-designed the Art for Justice Fund, an initiative that uses art and advocacy to address the crisis of mass incarceration.

Before joining the Foundation in 2018, Alexander was the Wun Tsun Tam Mellon Professor in the Humanities at Columbia University. Between 2000 and 2015, Alexander taught at Yale University, where she was a professor in the departments of English, American Studies, and African American Studies, where she served as chair. In 2015, she was appointed Yale’s inaugural Frederick Iseman Professor of Poetry. She also taught at Smith College and the University of Chicago.

An author or co-author of fourteen books, Alexander was twice a finalist for the Pulitzer Prize: for poetry with *American Sublime* and for biography with her 2015 memoir, *The Light of the World*. Her poetry and essays also include *Crave Radiancance: New and Selected Poems 1990–2010* (2010), *Power and Possibility: Essays, Reviews, Interviews* (2007), and *The Venus Hottentot* (1990). Accolades for her work include the Jackson Poetry Prize, the John Simon Guggenheim Memorial Foundation Fellowship, the George Kent Award, the National Endowment for the Arts Fellowship, and three Pushcart Prizes for Poetry. In 2009, Alexander composed and delivered a poem, “Praise Song for the Day,” for President Barack Obama’s inauguration.

Alexander earned a BA from Yale University, an MA from Boston University, and a Ph.D. in English from the University of Pennsylvania. She is a chancellor of the Academy of American Poets and is a member of the American Academy of Arts and Sciences.

HONORARY DEGREE RECIPIENT

Kwame Anthony Appiah

DOCTOR OF HUMANE LETTERS

Faculty Sponsor: Andrew Janiak

Kwame Anthony Appiah was born in London and grew up in Ghana. His mother was English and the author of children's books, and his father was from Ghana, where he was a member of Parliament and an ambassador. Appiah earned his B.A. and Ph.D. from Clare College at Cambridge University in philosophy.

Appiah is Professor of Philosophy and Law at New York University, where he teaches both in New York and at NYU global sites. From 2002 to 2013 he was a member of the faculty at Princeton, where he had appointments in the Philosophy Department and the University Center for Human Values. He has also taught at Yale, Cornell, and Harvard—and he was professor of philosophy and literature at Duke in 1990-91. Appiah has said, “As a teacher, I think it is important that one can change one’s mind. You make an argument. People make a counterargument. Sometimes they persuade you.”

Appiah’s contributions to philosophy include considerations of globalization, politics, identity, honor, and ethics. His scholarly reputation was built through such works as *In My Father’s House: Africa in the Philosophy of Culture* and *The Ethics of Identity*. But he has not been content to stay in the academic world of scholarship: he has addressed a broader public in such books as *Cosmopolitanism: Ethics in a World of Strangers* and *The Lies That Bind: Rethinking Identity*. He also writes the popular “Ethicist” column in the *New York Times Magazine*, through which he engages with questions from readers regarding everyday ethical quandaries they face at home, at school, and in the workplace.

Appiah has been elected to the American Academy of Arts and Sciences and has served as president of the Modern Language Association and as Chair of the Board of the American Council of Learned Societies. President Obama presented him with the National Humanities Medal in 2012, and the Carnegie Corporation of New York named him to its list of Great Immigrants in 2017.

HONORARY DEGREE RECIPIENT

Brian Kent Kobilka

DOCTOR OF SCIENCE

Faculty Sponsor: Robert J. Lefkowitz

Brian Kobilka holds the Helene Irwin Fagan chair in cardiology at Stanford University School of Medicine, where he is a professor of molecular and cellular physiology.

In the mid-1980s, Kobilka came to Duke for a cardiology fellowship. He worked with Robert J. Lefkowitz, James B. Duke Professor of Medicine, to study the structure and activity of G protein-coupled receptors (GPCRs). Kobilka played an instrumental role in determining the exact sequence of a gene for a particular GPCR called the beta-adrenaline receptor.

Kobilka's groundbreaking studies have contributed greatly to the understanding of membrane protein structure, function, and dysfunction. Many widely

used drugs work on GPCRs, including beta blockers for heart disease, antihistamines for inflammatory disease, various psychiatric medications, and treatments for ulcers. In 2011, Kobilka's lab captured through X-ray crystallography the first image of a GPCR transferring the signal from the hormone adrenalin on the outside of the cell to its G protein on the inside. For their discoveries, Kobilka and Lefkowitz shared the 2012 Nobel Prize in Chemistry.

After majoring in biology and chemistry at the University of Minnesota at Duluth, Kobilka earned his medical degree from Yale in 1981, supported by a Public Health Service Corps scholarship. He completed his residency in St. Louis before coming to Duke for his cardiology fellowship. He has been a member of the Stanford faculty since 1989. Kobilka has been elected to the National Academy of Sciences and received the 2010 Julius Axelrod Award from the American Society for Pharmacology and Experimental Therapeutic

HONORARY DEGREE RECIPIENT

Caroline Mary Series

DOCTOR OF SCIENCE

Faculty Sponsor: Ingrid Daubechies

Caroline Series is Emeritus Professor of Mathematics at the University of Warwick in the United Kingdom. She joined the faculty in 1978, and in 1992 she was the first woman in that country to be awarded a chaired professorship of mathematics. She is known for her leading contributions to hyperbolic geometry and dynamical systems. Her research concerns intricate and fundamental questions about the geometry of hyperbolic surfaces and 3-manifolds.

Besides her groundbreaking research, Professor Series has contributed extensively to the mathematical community, both nationally and internationally. She is currently the President of the London Mathematical Society (LMS), and in 2011 she was President of the Mathematical Section of the British Science Association. A founding member of

European Women in Mathematics in 1986, she has used her visibility and leadership positions to help promote the work of other women mathematicians and increase their visibility. Series is a Fellow of the Royal Society and of the American Mathematical Society; in 2014 she became the first recipient of the Senior Anne Bennett Prize of the LMS.

Series is also well known for communicating her research to wider audiences, notably in the elegant book *Indra's Pearls*. Creating computer images of geometric patterns in three-dimensional hyperbolic spaces took over ten years; the resulting book, with David Mumford and David Wright, was published by Cambridge University Press in 2002. It has been called “a work of art” and “one of the most beautiful examples of the illustration of the inherent aesthetic beauty” of mathematics.

She earned her B.A. in 1972 in mathematics from Somerville College, Oxford, where she was awarded a university Mathematical Prize. In 1976, she earned her Ph.D. from Harvard University, where she had held a Kennedy Scholarship.

STUDENT SPEAKER

Leah Teresa Rosen

CANDIDATE FOR THE DEGREE OF BACHELOR OF SCIENCE

Leah Rosen is a member of the Class of 2019 from Aurora, Colorado. She graduates today from Trinity College of Arts

and Sciences with a Bachelor of Science in “Illness & Identity,” a major she created through Duke’s Program II to consider the body’s response to disease and how the experience of illness can shape one’s self-concept. Her academic interests were developed through the Reimagining Medicine Fellowship Program and by working as a research assistant in the Health Humanities Lab. Rosen also worked as a research assistant in the Duke Eating Disorder Research Lab, through which she completed an honors thesis on the topic of identity development and disturbance in patients with anorexia nervosa. She also had the opportunity to study abroad in Costa Rica and in London.

Among her extracurricular involvements, Rosen was the president of Duke Global Medical Brigades, an organization that plans trips to Honduras to provide rural communities with basic medical care, and she was the president of DukeHAND, which serves patients with Alzheimer’s Disease and other neurological disorders. She has been a volunteer at the Duke Cancer Center Boutique and served as the Risk Management Chair for her sorority, Kappa Kappa Gamma. Outside of Duke, she was an editor for *In Training*, an online peer-reviewed publication for medical students.

Next year Rosen will pursue a Master of Science in Narrative Medicine at Columbia University. She plans to continue on to medical school and aspires to a career in pediatrics and medical education.

THE TRADITIONS OF COMMENCEMENT

Notes on Academic Dress

Academic dress had its origin in the Middle Ages. When the European universities were taking form in the thirteenth and fourteenth centuries, scholars were also clerics, and they adopted robes similar to those of their monastic orders. Caps were a necessity in drafty buildings, and copes or capes with hoods attached were needed for warmth. As the control of universities gradually passed from the church, academic costume began to take on brighter hues and to employ varied patterns in cut and color of gown and type of headdress.

The use of academic costume in the United States has been continuous since Colonial times, but a clear protocol did not emerge until an intercollegiate commission in 1893 recommended a uniform code. In this country, the design of a gown varies with the degree held. The bachelor's gown is relatively simple with long pointed sleeves as its distinguishing mark. The gown for the master's degree has an oblong sleeve with the rear part cut square and the front part with a cutaway arc. The most elaborate academic costume is the doctoral gown with velvet panels down the front and three bars of the same material across the sleeves. The velvet is usually black, but it may be a color designating the field of study to which the degree pertains. The gown itself, usually black like those of the lower degrees, may be of a color distinctive of a particular university.

The hood bears a still larger symbolic burden: the width of its velvet trimming designates the level of the degree; the color heralds the major field of study; and the lining identifies the institution that granted the degree. Duke University is symbolized by a lining of Duke blue with a white chevron.

The cap, originally round, is usually a square mortarboard and is the same for all degrees. The standard tassel for the cap is black, but the cap worn with the doctoral robe may have a gold tassel. The Duke doctoral gown is in the authentic Duke blue. The Duke University shield, embroidered in blue on white, is applied to each front panel. With this gown there may be worn a black velvet, four-pointed, soft tam with a square top and a gold metallic bullion tassel.

Mace and Chain of Office

At commencement, ceremonial use is made of two important insignia given to Duke University in memory of Benjamin N. Duke. Both the mace and chain of office are the gifts of anonymous donors and of the Mary Duke Biddle Foundation. They were designed and executed by Professor Kurt J. Matzdorf of New Paltz, New York, and were dedicated and first used at the inaugural ceremonies of President Sanford in 1970.

The Mace, the symbol of authority of the University, is made of sterling silver throughout. It is thirty-seven inches long and weighs about eight pounds. At the lower end of the hammered shaft is a gilt (gold-plated) pine cone. The upper end of the shaft displays the inscription *Universitas Dukiana* 1838. This inscription is surmounted by a short, hammered neck followed by the head which has eight flutings alternating with eight gilt ribs. Above the head of the mace, a band carries the motto of Duke University: *Eruditio et Religio*. The upper end of the mace is a crown of gilt laurel leaves which carries the seal of Duke University surrounded by the three symbols of the Trinity to indicate that Duke University emerged from Trinity College.

The Chain of Office of the President of Duke University is four feet long and is also made of sterling silver throughout. The main part consists of nine silver pine cones alternating with ten gilt clusters of three laurel leaves each. In the front hangs the gilt medallion with the official seal of Duke University surrounded by a laurel wreath into which are set the three symbols of the Trinity. In the back is the gilt coat of arms of the Duke family with the motto *In Adversis Idem* set in a sterling wreath of laurel leaves and bearing the inscription *Duke*.
