TABLE OF CONTENTS

2 Candidates for Degrees

2 Graduate School

Doctor of Philosophy
Master of Arts
Master of Arts in Teaching
Master of Fine Arts
Master of Science

13 School of Medicine

Doctor of Medicine
Doctor of Physical Therapy
Master of Biostatistics
Master of Health Sciences, Physician Assistant Program
Master of Health Sciences, Pathologists' Assistant Program
Master of Health Sciences in Clinical Research
Master of Management in Clinical Informatics
Master of Science in Biomedical Sciences

16 School of Law

Doctor of Juridical Science
Juris Doctor
Master of Laws
Master of Laws, International and Comparative Law
Master of Laws, Judicial Studies
Master of Laws, Law and Entrepreneurship

18 Divinity School

Doctor of Ministry
Doctor of Theology
Master of Arts in Christian Practice
Master of Divinity
Master of Theological Studies
Master of Theology

37 Honors and Distinctions

44 Special Prizes and Awards

47 Scholarships and Fellowships

48 Military Service

48 Members of the Faculty Retiring

48 Marshals

50 The Traditions of Commencement

51 Commencement Timeline

21 School of Nursing

Doctor of Nursing Practice
Master of Science in Nursing
Bachelor of Science in Nursing

23 Fuqua School of Business

Master of Business Administration
Master of Management Studies
Master of Science in Quantitative Management
Master of Science in Quantitative Management: Health Analytics

27 Nicholas School of the Environment

*International Master of Environmental Policy**
Master of Environmental Management
Master of Forestry

28 Sanford School of Public Policy

Master of International Development Policy
Master of Public Policy

29 Pratt School of Engineering

Master of Engineering
Master of Engineering Management
Bachelor of Science in Engineering

32 Trinity College of Arts and Sciences

Bachelor of Arts
Bachelor of Science

* Joint degree with Sanford School of Public Policy

CANDIDATES FOR DEGREES

GRADUATE SCHOOL

DOCTOR OF PHILOSOPHY *Presented by Dean Paula D. McClain*

September 1, 2020

Nathan Joseph Adamson

‡ The Development of Palladium-Catalyzed Regio- and Enantioselective Hydrofunctionalizations of Conjugated Dienes and Enynes

Reza Alijani

Algorithms for Two-sided Online Marketplaces

Nabil Michel Atallah

The Second Generation Shifted Boundary Method with Applications to Porous Media Flow and Solid Mechanics

Brian Robert Bigler

Shock Propagation in Mechanical Models of Traumatic Brain Injury

Christian Moritz Binder

Cambre Nicole Kelly

Characterization of High Strength, High Porosity Gyroid-Sheet Scaffolds

Christopher Scott Kennedy

The Use and Abuse of Technology: Reconsidering the Ethics of Civil Disobedience, Leaking, and Intellectual Property for the Information Age

Young-Joong Kim

Volumetric Acoustic Radiation Force Impulse Imaging Using Intracardiac Echocardiography

Christopher Luke Krapu

Development of Novel Bayesian Models of Environmental Systems with Application to the Prairie Wetlands of North America

Caley Jane Burrus Lane

Understanding the Role of Huntingtin in Central Nervous System Development and Function

Chiyoung Lee

Cardiovascular Health Disparities among Older Adults in South Korea

Pak Hong (James) Leung

Robust Ion Trap Quantum Computation Enabled by Quantum Control

Dani Levin

Convolution and Volterra Series Approach to Reduced Order Modelling of Unsteady Aerodynamic Loads and Improving Piezoelectric Energy Harvesting of an Aeroelastic System

Didong Li

Learning and Exploiting Low-Dimensional Structure in High-Dimensional Data

Jianghao Li

Design and Monitoring of Clinical Trials with Clustered Time-to-Event Endpoint

Mengyun Liu

Adaptive Methods for Machine Learning-Based Testing of Integrated Circuits and Boards

Renze Ma

Development and Application of Large-Scale Protein Folding Stability Analysis in Drug Target Identification and Disease Biomarker Discovery

Ronald Charles Malone

Measurement of the Neutron-Neutron Quasifree Scattering Cross Section in Neutron-Deuteron Breakup at 10.0 and 15.6 MeV

Jiachen Mao

Efficient Neural Network Based Systems on Mobile and Cloud Platforms

Jialiing Mao

Advances in Bayesian Hierarchical Modeling with Tree-Based Methods

Miles S. Marsala

THE TRADITIONS OF COMMENCEMENT

Notes on Academic Dress

Academic dress had its origin in the Middle Ages. When the European universities were taking form in the thirteenth and fourteenth centuries, scholars were also clerics, and they adopted robes similar to those of their monastic orders. Caps were a necessity in drafty buildings, and copes or capes with hoods attached were needed for warmth. As the control of universities gradually passed from the church, academic costume began to take on brighter hues and to employ varied patterns in cut and color of gown and type of headdress.

The use of academic costume in the United States has been continuous since Colonial times, but a clear protocol did not emerge until an intercollegiate commission in 1893 recommended a uniform code. In this country, the design of a gown varies with the degree held. The bachelor's gown is relatively simple with long pointed sleeves as its distinguishing mark. The gown for the master's degree has an oblong sleeve with the rear part cut square and the front part with a cutaway arc. The most elaborate academic costume is the doctoral gown with velvet panels down the front and three bars of the same material across the sleeves. The velvet is usually black, but it may be a color designating the field of study to which the degree pertains. The gown itself, usually black like those of the lower degrees, may be of a color distinctive of a particular university.

The hood bears a still larger symbolic burden: the width of its velvet trimming designates the level of the degree; the color heralds the major field of study; and the lining identifies the institution that granted the degree. Duke University is symbolized by a lining of Duke blue with a white chevron.

The cap, originally round, is usually a square mortarboard and is the same for all degrees. The standard tassel for the cap is black, but the cap worn with the doctoral robe may have a gold tassel. The Duke doctoral gown is in the authentic Duke blue. The Duke University shield, embroidered in blue on white, is applied to each front panel. With this gown there may be worn a black velvet, four-pointed, soft tam with a square top and a gold metallic bullion tassel.

Mace and Chain of Office

At commencement, ceremonial use is made of two important insignia given to Duke University in memory of Benjamin N. Duke. Both the mace and chain of office are the gifts of anonymous donors and of the Mary Duke Biddle Foundation. They were designed and executed by Professor Kurt J. Matzdorf of New Paltz, New York, and were dedicated and first used at the inaugural ceremonies of President Sanford in 1970.

The Mace, the symbol of authority of the University, is made of sterling silver throughout. It is thirty-seven inches long and weighs about eight pounds. At the lower end of the hammered shaft is a gilt (gold-plated) pine cone. The upper end of the shaft displays the inscription *Universitas Dukiana* 1838. This inscription is surmounted by a short, hammered neck followed by the head which has eight flutings alternating with eight gilt ribs. Above the head of the mace, a band carries the motto of Duke University: *Eruditio et Religio*. The upper end of the mace is a crown of gilt laurel leaves which carries the seal of Duke University surrounded by the three symbols of the Trinity to indicate that Duke University emerged from Trinity College.

The Chain of Office of the President of Duke University is four feet long and is also made of sterling silver throughout. The main part consists of nine silver pine cones alternating with ten gilt clusters of three laurel leaves each. In the front hangs the gilt medallion with the official seal of Duke University surrounded by a laurel wreath into which are set the three symbols of the Trinity. In the back is the gilt coat of arms of the Duke family with the motto *In Adversis Idem* set in a sterling wreath of laurel leaves and bearing the inscription *Duke*.
